## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 101***

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 8, 10, 11, 13-14 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The claims are directed to a judicial exception; as such, pursuant to the Interim Guidelines on Patent Eligible Subject Matter (MPEP 2106), the claims must have either physical transformation and/or a useful, concrete and tangible result. The claims fail to include transformation from one physical state to another. Although, the claims appear useful and concrete, there does not appear to be a tangible result claimed. Merely calculation step or determination step would not appear to be sufficient to constitute a tangible result, since the outcome of the determination or calculation step has not been used in a disclosed practical application nor made available in such a manner that its usefulness in a disclosed practical application can be realized. As such, the subject matter of the claims is not patent eligible.

### ***Allowable Subject Matter***

3. Claims 1, 3-4, 6-7 are allowed.

The statement of reasons indicates in the Last Office Action.

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 8, 10, 11, 13-14 have been considered but are moot in view of the new ground(s) of rejection.
